Laws Related to Human Embryonic Stem Cell Research in Individual States (2009)

- **Permits hESC research and provides state funding for hESC research**
- **Permits hESC research**
- **Provides state funding for hESC research**
- **Permits hESC research, provides state funding for hESC research, but limits hESC derivation to embryos created for reproductive purposes and/or does not allow SCNT**
- **Permits hESC research but limits derivation and/or source of hESCs (for example, limitations may include prohibiting SCNT, restricting research to embryos created for reproductive purposes, and/or only allowing research on existing hESC lines)**
- **Specifically prohibits research on living/non-living fetus or embryo**
- **No enacted hESC research laws**

Note: Alaska and Hawaii do not have enacted hESC research laws
