

Ethical and Practical Issues in Global Human Research

Manchester Grand Hyatt San Diego

November 14, 2018

Ethical and Practical Issues in Global Human Research will explore complex issues in reviewing, conducting, and overseeing human research conducted globally. It will serve as a platform for speakers and workshop participants to exchange ethical issues and practical challenges encountered in their daily work, and discuss their experiences and approaches in resolving them. Upon completing this workshop, participants will be able to identify applicable regulations and guidelines governing global human research; apply equivalent protection concepts in reviewing such research; address common challenges; and be familiar with approaches to ensure compliance and improve performance for IRBs and/or ethics review committees.

****Note:** If you are taking both half-day preconference programs (one in the morning and one in the afternoon), please note that lunch will be available. If you are only taking this half-day workshop, lunch will not be provided*
