

IACUC Fundamentals

Hyatt Regency Bellevue
Bellevue, WA
April 1, 2019

IACUC Fundamentals is a **basic level** educational program. During this preconference program, participants will review the history of animal welfare regulations and oversight and accrediting bodies; the roles and responsibilities of the IACUC and staff members; training IACUC staff, IACUC members, and research staff; protocol review; post-approval; and how to work with others outside of the IACUC. At the end of the course, we'll have small group activities and scenarios so that attendees can engage with one another and apply what they learned throughout the workshop.

Learning Objectives:

- Gain an understanding of the history of animal welfare regulations and oversight and accrediting bodies.
- Review the roles, responsibilities, and training of researchers, the IACUC, and IACUC-associated staff members (including IACUC administrators/coordinators/directors, etc.)..
- Understand the protocol review and post-approval monitoring processes.
- Discuss effective ways to work with stakeholders outside of the IACUC.
